Long-Distance Birthday Audio Gift Planner

Delivery timing

Choose a moment in the recipient time zone: breakfast, a family video call, or a birthday dinner. Send an accompanying note explaining why the song is personal.

Name and relationship

Use a name or nickname the recipient likes. Check spelling and decide whether the song should reflect friendship, family or a partner relationship.

Music and duration

Pick a style and singer voice for the listener. A 30-second track suits a quick surprise; 180 seconds can become a keepsake. Review the setup free before paid production.

Sharing the gift

After the one-time price is shown at secure checkout and the finished audio is produced, download the MP3. Test playback before sending the message, and save a copy.
