Office Birthday Audio Moment Checklist

Respectful name

Confirm the name or nickname a colleague prefers. Avoid personal birthday details the person does not want shared at work.

Brief event

Choose a cake-break time that works for nearby and remote teammates. Test the meeting-room speaker and keep music at a comfortable volume.

Sound and language

Choose an upbeat or warm musical style, a singer voice and a lyric language the team will understand. Review the name-led guided setup free before paid production.

After the moment

The one-time price appears at checkout for a 30-second or 180-second finished track. After production, play the MP3 at the event or share it privately with a remote teammate.
